## Short description

I build solid web environments for different use cases. My goals when writing applications are clean and maintainable code, scalability and modern technologies.

## Work experience

- |                      |  |
|----------------------|--|
| 04.2022 – Now        | <b>jacando AG</b> – Full stack developer - 70%<br>MongoDB, NodeJS, ReactJS, Apollo, GCP, Docker<br>Managing translations processes for multiple projects<br>Improving noSQL db performance<br>Building microservices and containerization        |
| 09.2020 –<br>03.2022 | <b>jacando AG</b> – Junior Full stack developer - 70%<br>MongoDB, NodeJS, ReactJS, Apollo, GCP, Docker<br>Managing translations processes for multiple projects<br>Improving noSQL db performance<br>Building microservices and containerization |
| 08.2019 –<br>08.2020 | <b>jacando AG</b> – Intern developer - 100%<br>MongoDB, NodeJS, ReactJS, Apollo<br>Refactoring old code to newest technologies<br>Fullstack features implementation  |

## Studies (CH)

- |               |   |
|---------------|---|
| 09.2020 – Now | <b>FHNW</b> – BSc - Computer Sciences<br>University of Applied Sciences Northwestern Switzerland                    |
| 2016 – 2019   | <b>BBB</b> – EFZ - Swiss certificate of proficiency Computer Sciences<br>Berufsfachschule Baden (Vocational School) |
| 2016 – 2019   | <b>Kanti</b> – BM - High school graduation<br>Kanti Baden (Highschool)  |
| 2015 – 2016   | German course A1-C1<br>Interim year language course   |

## Studies (IT)

2012 – 2015    **ITIS EM** – BM - High school graduation  
Itis Ettore Majorana (industrial technical institute)

## Teaching experience

2018 – Now    **Math teacher** Private Math lessons for 13-18 y/o students

## Skills

### Programming languages and frameworks

Proficient in: MongoDB, Golang, NodeJS, Kotlin, ReactJS, SvelteJS

Familiar with: Angular, Java, C++, Python, SQL

### Software

Git, Docker, GCP

### Languages

English, German, Italian

## Hobbies

Piano, Music, Travelling and of course Programming
